

## CLEAR PROTECTIVE FACE SHIELD

MADE IN THE U.S.A

### ABOUT OUR TEAM

Extreme Engineering is an engineering design and fabrication firm, located in both California and Texas, that specializes in various markets such as aviation, amusement, military and safety. For over 25 years, Extreme Engineering has been a leader in design and fabrication to clients across the globe ranging from Disney, Universal, NASA, U.S. Military and many others. Extreme Engineering operates their fabrication firm outside of Dallas, Texas in a large, state of the art facility. We take pride in inventing forward and solving today's problems with quick, breakthrough solutions where innovation comes standard with every design.

**STAY SAFE. STAY STRONG.**

extreme  
PPE SHIELD

\*Note: Elastic cord and cord lock might slightly differ in color.

Identifying the high demand in PPE gear during today's climate, Extreme Engineering designed a clear protective face shield for droplet protection. The Extreme PPE Shield can be worn by anyone interacting with the public, in business or in personal use while outside the home. This shield offers a simple physical barrier from direct splatter or fluids, providing an extra layer of protection. Our shield is a great addition to arm with your current N95 compliant mask. The Extreme PPE Shield is made of high-grade, shatter resistant polycarbonate. The one-size-fits-all shield comfortably secures around the head with an elastic cord and cord lock. Easy assembly is required so that large quantities of shields can ship in a single box.

## FULLY ADJUSTABLE, READY TO USE.

Cord lock  
to secure  
a snug fit.

Adjustable  
elastic cord.

Front headband  
to rest on  
forehead.

Shatter resistant  
polycarbonate.

Our factory is currently capable of producing large volumes of protective face shields per day with quick lead times on large orders. We can drop ship to any destination in the world, including overnight shipping in most areas of the continental U.S. for an additional cost. Please call Intermark Ride Group today for availability at: +1.615.370.9625 or +1.615.385.4380.

# EXTREME PPE SHIELD DATA

All Extreme PPE Shields are proudly built in the U.S.A. and support our country's workforce. Each shield includes the following:

- High-grade, shatter resistant polycarbonate.
- \*Can be rinsed and reused.
- Fully adjustable & fast, easy assembly.
- Anti-fog with no optical distortion.
- Added comfort with double elastic cord and cord lock.
- Maintains shape with ergonomic design.

\*Note: Refer to CDCs cleaning guide for PPE Shields.

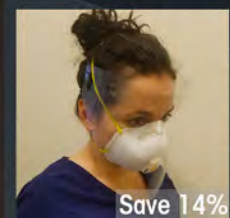

## LEAD TIMES

Ships within just days of order, depending on volume. Our team can overnight your shipment, to most areas within the continental U.S., for an additional fee.

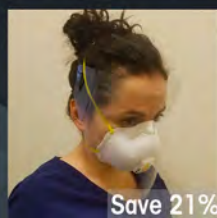

## PRICE OPTIONS - SALES TAX, SHIPPING & HANDLING ARE NOT INCLUDED.
